ABOUT KVANCE

Kvance (Hong Kong) Technology Co., Ltd,

Under its subsidiary Shenzhen SoundBass Technology Co., Ltd., as well as Indian factories Fast Vance, it is a global strategic partner of the global TOP5 smart device/wearable brand BOAT, focusing on smart devices/wearable Bluetooth earphones and other products. It is a high-tech enterprise that integrates design, research and development, production, sales, and service. Its products are positioned in the mid to high end market, exported to more than 68 countries and regions worldwide, and undertakes OEM and ODM cooperation.

Corporate Vision: To become an innovator in the audio industry, and to create a national specialized and innovative small giant enterprise that integrates design, research and development, marketing, sales, and production.

Corporate values: customer-centric, creating a team with warmth.

Corporate Mission: Creating Unique Value for Customers.

The company was established in 2015, with its subsidiary Shenzhen SoundBass Technology Co., Ltd. It is a modern national high-tech enterprise dedicated to the research and development, market, manufacturing, sales, and service integration of intelligent wear, sports neck Bluetooth earphones, TWS Bluetooth earphones, and other products. All products have appearance patents and core invention patents. Our company adopts a craftsman spirit to produce products, providing customers with high-quality, high value-added acoustic enjoyment. The company has a rigorous and efficient quality assurance system, adopts a strictly certified production management process for supply chain components, and is recognized by international authoritative quality certification institutions. It has passed ISO9001, CE, FCC, Rohs, and BSCI certifications.
