

Bitvae was founded in Texas as an alternative to the complicated, chunky, and expensive electric toothbrushes that have dominated the market for decades.

Bitvae is the result of Thumbs up teams' 10+ years of experience working in design, R&D and supply chain for industry leading brands, combined with a great passion for making oral care easy and accessible to everyone.

Bitvae  
Oral Care Made Easy

A promotional banner for Bitvae featuring a background of vertical orange stripes. On the left, the Bitvae logo and tagline "Oral Care Made Easy" are written in white. On the right, a collection of Bitvae oral care products is displayed on a grey concrete ledge. From left to right, there are two boxes of Bitvae toothbrush heads (one orange and one white), four electric toothbrushes in various colors (pink, white, black, and dark blue), and two ultrasonic water flossers (one black and one white).
